For the conformation judging, the exhibitor may use a lead shank in place of a lunge line. The lead shank or lunge line chain can be used under the chin, over the nose, or hanging from the halter. The exhibitor will be allowed 1½ minutes to present the horse. The announcer will signal when time is over. The horse must walk, trot, and lope in each direction. Before lunging competition begins, each horse will be shown to judge for conformation inspection. The horse is judged 70% on its movement and 30% on its conformation.

This class is for exhibiting yearling horses on a longe line to demonstrate that the horse has the movement, manners, expression, attitude, and conformation to become either a "western pleasure prospect" or a "hunter under saddle prospect." If showing a western pleasure prospect, the exhibitor would wear appropriate western attire. If showing a HUS prospect, the exhibitor would wear English attire. A warm-up period is required for all exhibitors. Exhibitors may show only one horse.

(Points on exhibitor)
- (18 & under, 19 & over) Each exhibitor may only show one horse. (Points on horse)
- A. Each horse shall be judged on the riding qualities of its gaits (walk, trot, and canter), lead changes, response to the rider, manners, disposition, and intelligence.
 - B. Scoring will be on the basis of 60 to 80 with 70 denoting an average performance. When a marker is hit or knocked down, the horse shall be penalized but not disqualified. A score card will be furnished and turned in with the judge's card. Five points will be deducted for breaking gait at the lope, simple change of leads, failure to change leads after one stride, or additional lead changes. One point will be deducted for hitting the log. Credits should be scored for simultaneously changing leads, hind and front; changes at designated point; accurate and smooth pattern; easy to guide and control; manners, and disposition. Faults include open mouth, stumbling, and anticipating cues.
 - C. Western attire and tack are required with the exception that leg wraps and/or boots are optional at the rider's discretion.
 - D. The association will prescribe a pattern and routine according

to which the animals shall be worked. In order to make competition fair, it is essential that exhibitors and judges adhere to the pattern.

- E. Failure to manipulate the cones in the proper sequence will result in disqualification. Excessive speed will be penalized.
- F. Safety should be a consideration when constructing the following course.
 - a) The short triple line represents a swinging gate. The horse must put the rider in a position to open, pass through, and close the gate without dismounting. The gate must be set up so that it is a minimum of 4 feet in length and 4 feet in height. The gate should be located in any convenient part of the arena where it will not interfere with the balance of the routine. The rider may not change hands on the gate or lose control of the gate while passing through.
 - b) The eight small circles (o) represent markers (pylons, kegs, or any safe markers not more than 36 inches high). On the side of the pattern that has five markers, these markers should be separated by a uniform distance of not less than 30 and not more than 50 feet.
 - c) The rectangle represents a log.
 - d) The direction of travel and the required gaits are indicated as follows:
 - i) The dotted line (...) indicates the walk.
 - ii) The line indicated by dashes (---) designates the trot.
 - iii) The solid line (____) indicates the lope.
 - iv) Lead changes should be made as near the half-way point between the markers as possible. Lead changes at the lope should be flying lead changes; however, a contestant who performs simple lead changes should be penalized, but not disqualified.
 - e) On completion of the pattern, the exhibitor shall stop and back his horse near the center of the pattern
- G. While the horse is in motion, the rider's hand shall be clear of the horse and saddle.
- H. There are four western riding patterns that judges may select. These patterns are located in the printed rulebook immediately

following the reining patterns, or on the Web site.

73. Trail. (18 and under, 19 and over, and novice) Only one entry is allowed per rider. Show management has the option to hold the trail classes simultaneously during the day using an approved judge for all the trail classes that day. The trail judge shall be under the same rule as any other judge with a 2 show limit, not counting against the opportunity to judge two complete shows. The judge will submit a score card with his judge's card for all trail classes. (Points on exhibitor)

(Open) In the open class the exhibitor can show more than one horse. (Points on horse)

- A. An exhibitor may use only one hand on the reins and may not change hands except when putting on or removing a slicker, carrying an object from one part of the arena to another, opening or closing a gate, or dismounting.
- B. Judging Procedures:
- i) This class will be judged 100% on the performance of the horse over obstacles, response to the rider, intelligence, and manner of travel at a walk, trot, and lope. The walk, trot, and lope should be performed as the horse moves from one obstacle to the next, giving the judge an opportunity to evaluate all three gaits somewhere within the trail course. EXAMPLE: The horse could walk from the first to the second obstacle, trot from the second to the third, and lope from the third to the fourth obstacle.
 - ii) The trail course must be outlined by the show management and posted for the contestant and the judge by noon.
 - iii) Credit will be given to those horses negotiating the obstacles smoothly and responding promptly to the rider's cues. Any horse performing with an artificial or mechanical appearance should be penalized.
 - iv) Excessive speed is to be penalized.
 - v) The judge may ask for additional work from any competitor.
 - vi) A time limit must not be placed on the entire trail course. However, the judge may set a time on individual obstacles. If a time limit is not established, the judge may

direct the contestant to proceed to next obstacle when it becomes evident that the horse will not perform.

- vii) Failure to follow the sequence of obstacles on the trail course as outlined and posted by the show management will result in disqualification. All obstacles must be attempted. However, if an exhibitor attempts and fails to complete an obstacle(s), this will not be grounds for disqualification but should be judged accordingly.

C. Obstacle Requirements:

- i) Six (6) obstacles will be used, the four mandatory obstacles and two additional obstacles selected from the optional list.
- ii) Care must be exercised to avoid setting up any of these obstacles in a manner that may be hazardous to the horse or rider. Obstacles not combined shall be a minimum of nine (9) feet apart.
- iii) When the completion of an obstacle as specified is unsafe or impossible without changing hands on the reins, then all competitors must be advised that such a change of hands is permitted.

iv) Mandatory obstacles:

- a. Gate. The gate must be a minimum of 4 feet in length and 4 feet in height, so that the contestant can open it from his right side or his left side. The rider may not change hands or lose control of the gate while passing through.
- b. Bridge. The bridge will have a wooden floor not to exceed twelve (12) inches in height and may have side rails no less than thirty inches apart. A log placed under the bridge to create a teeter-totter effect shall be prohibited.
- c. Backing. Any one of the following obstacles may be used.
 1. The L shape with a minimum of 30 inches separating the logs or rails and the length of the L must be at least 10 feet.
 2. Three (3) barrels or markers in a straight line and at least 36 inches apart.
 3. Rails making a U shape that must be at least 6 to 8 feet long. The 3 outside rails make the U with the middle rail to be at least 36 inches from the outside to the middle on both sides; thus, it makes a channel for the horse to back.
 4. The triangle of barrels, 40 inches apart, or markers, 36 inches apart.
- d. Logs. This obstacle consists of at least four smooth logs placed at least 18" apart in such a manner as to demonstrate the willingness of the horse to proceed over such obstacles. Walk over logs will be spaced 18" to 24" apart; trot over logs placed 24" to 36" apart; lope over logs placed 6' to 7' apart.

Optional Obstacles:

- e. Carrying Object. Any object, other than animal or fowl, and a reasonable size or weight, may be carried to a specified point.
- f. Ground Tie. The rider is to proceed to the designated place, dismount, ground tie his horse, and move away

from the horse a reasonable distance. Then he should proceed to walk around the horse in a circle with a 10 to 15 feet radius (distance from horse) to clearly show the proper training of the horse.

- g. Slicker. When this obstacle is used, it will be so located that the rider can ride to the slicker, put it on, and return it to a designated place. Reins may be held or dropped on the neck of the horse or over-the saddle horn while so doing.
 - h. Barricades. An obstacle not less than 14" high nor more than 24" high may be designed for a horse to be ridden over or led over, as specified in the design of the course.
 - i. Side Pass. An object of such a nature and length that is safe and lying on the ground may be used to demonstrate the responsiveness of the horse to leg signals. Objects such as a bale of hay that may become entangled in a horse's feet or legs will not be used. The obstacle may be designed to require the horse to side pass either or both ways in a pattern.
 - j. Mail Box. The exhibitor should side pass to, remove the article in the mail box, put it back, and side pass away from the mail box.
 - k. Lime Circle. This obstacle should require a turn on the forehand with the front feet inside and the back feet turning on the outside of the lime circle. The turn can be either direction unless specified on the pattern.
 - l. Square. The horse should plant all 4 feet in the square, make a 360 degree turn and ride out. The logs or rails forming the square must be at least 5 to 6 feet long.
 - m. Drag or Pull. Any object other than animal or fowl that can reasonably be pulled or dragged without the contestant having to dally may be used. Dallying shall be at the option of the contestant.
 - n. The Trail Committee can design new obstacles but has to gain approval of the executive committee before adding them to the trail rules or put them in a trail class that is approved by the SCSHA.
74. Walk-Trot Trail. (all ages) The previous trail rules will apply to this class; however, only 4 obstacles will be required, 2 mandatory and 2 optional. No gate will be allowed. The contestants must

also show at a walk and a trot during the pattern. (Points on exhibitor)

75. Reining (18 and under, 19 and over) Each horse will be judged on ease, calmness and reasonable speed with which it performs the pattern. Only one entry is allowed per rider. (Points on exhibitor) (Open) More than one entry will be allowed per rider. (Points on horse)
